Subject: EPA crumb rubber study

Hi Tracey,

I am emailing from the EPA's Office of Resource Conservation and Recovery to follow up on your communication with Nicole Villamizar around the federal research of the recycled crumb rubber used in playing fields. As left off with Nicole, I wanted to check if RMA would be available for a 1.5 hour meeting on April 7, between 10:00 AM and 12:00 PM, or between 1:00 and 3:00 PM.

The purpose of the meeting between the EPA and RMA would be to share information relevant to the federal research as outlined in the Federal Action Plan, such as the tire composition and how tires are manufactured. We will also be open to answering any questions RMA has regarding the Federal Action Plan, and for preparation on our end, would welcome your feedback as to what those questions may be.

Looking forward to meeting with you!

Thank you and all the best,

Ksenija Janjic

Subject: RE: EPA crumb rubber study

Hi Nicole,

Thanks so much for the email. We would appreciate the opportunity to meet with you in the timeframe you mention. Would the first week in April work on your end? We are available April 4 or April 7. Please let me know.

As for touching base by phone next week, my schedule is completely clear on Tuesday. Would sometime Tuesday fit with your schedule?

Thanks and have a great weekend!

Best regards,

Tracey
